Nilmini Wickramasinghe

Swinburne University of Technology and Epworth HealthCare, Australia

Doug Vogel

Harbin Institute of Technology, China

Luuk Simons

Delft University of Technology, Faculty of Computer Science, The Netherlands

Panel Outline

In this panel we discuss how Covid-19 has transformed our daily life and especially how we work. We discuss the use of Global Data Analytics that encourages collaboration locally, nation-wide, globally, in alliances, in academia, in fact, anyone, anytime, anywhere. However, we have a focus on the healthcare sector.
