

35<sup>th</sup> Bled eConference

Digital Restructuring and Human (Re)Action

June 26 – 29, 2022; Bled, Slovenia

---

**eHealth Panel:  
Self-Management Support; Challenges & Best Practices**

**Luuk Simons**

Delft University of Technology, Faculty of Computer Science, The Netherlands  
L.P.A.Simons@tudelft.nl

**Juergen Seitz**

Baden-Wuerttemberg Cooperative State University, Germany  
Juergen.Seitz@dhbw-heidenheim.de

**Panel Outline**

In this eHealth panel, it would be nice to span questions in the range from: (suggestions are welcome)

\* How to better integrate best practices from eHealth Self-Management Support & Lifestyle Medicine into standard health care?

to:

\* Which support tools/AI could help health professionals or front runner patients in rapidly checking and using the scientific state of the art (the +200.000 of new health publications/year) regarding health self-management for important health conditions (like cardiovascular disease, type 2 diabetes, lifestyle-sensitive forms of cancers and dementia etc)?

**Presenters:**

***Building a hybrid AI (Scholar-Google+Wiki) for eHealth Self-Management (on +200.000 health publications/year)***

Luuk Simons, Delft University of Technology, Faculty of Computer Science, The Netherlands

***eHealth Self-Management: the Challenge of Reliable Data***

Juergen Seitz, Baden-Wuerttemberg Cooperative State University, Germany

***Responsible design***

Nilmini Wickramasinghe, Swinburne University of Technology and Epworth HealthCare, Australia

***Managing Misinformation***

Doug Vogel, Harbin Institute of Technology, China
